

DIXON EVENING TELEGRAPH.

OFFICIAL PAPER OF THE CITY OF DIXON, BY ACT OF CITY COUNCIL.

Dixon Telegraph Sixtieth Year

DIXON ILLINOIS, FRIDAY NOVEMBER 3 1911.

Daily Twenty-Eighth Year No. 259

TOMORROW IS DIXON'S FOURTH DOLLAR DAY

EVERY STORE WILL PUT OUT
LEADERS AT VERY LOW
PRICES.

MAKE ROUNDS OF THE STORES

Shoppers Will Find Special Bargains
in All Lines of Goods in
Dixon.

Tomorrow is Dixon's fourth dollar day when, regardless of weather conditions, the city will be filled with shoppers to snap up the special bargains offered by the merchants as trade inducers and business builders.

The merchants of Dixon will tomorrow offer certain articles at cost and others at nearly cost, the sacrificed profit being charged up to advertising. This general bargain day entered into by all of the merchants of the city is by its periodical appearance bringing much new trade to Dixon, and the merchants have faith that an inspection of the stocks carried in the local stores will convince all comers that Dixon is the best place to trade in this section of the state.

The shoppers who buy these special bargains tomorrow will buy other goods at a legitimate profit to the dealers, and with the increased trade the merchants find they can trim the profits on individual sales and the increased business will allow them to turn their money oftener, carry larger stocks and reap a larger net income while making Dixon famous as an economical shopping place.

Every reader of the Telegraph is going to visit the stores of the city tomorrow, for it is through this paper that the merchants keep in touch with the public by their daily announcements of the new goods and prices.

Each store will have some unusual bargain tomorrow, and by making the round of the stores the shoppers may take advantage of a most diversified class of goods. No matter what your needs, you are sure to find what you want at an exceptionally low price in the stores of Dixon tomorrow.

DESTRUCTIVE FARM FIRE IN VIOLA

CHAS. KRAHNBUHL LOSES BARN,
LIVE STOCK, GRAIN AND
MACHINERY.

One of the most destructive farm fires of recent years took place on the farm where Chas. Krahnbuhl resides, in Viola township, Sunday afternoon. How the fire started is a mystery, as when the horses were fed at the noon hour everything seemed all right.

The fire burned the barn and with it four fine horses valued at \$1000, two hogs and practically all farming implements. One of the teams of horses was the dapple gray team he purchased last spring for which he paid \$490.

The corn crib contained 1200 bushels of new corn and the granary containing 2500 bushels of oats was also burned. He also lost much harness and other articles. It is reported that he carried \$2500 insurance on grain and animals. His loss is nearly \$3500 and the owner of the farm will have a loss of about \$2500.

PREDICT DECIDED CHANGE IN WEATHER

Local weather prophets are predicting all sorts of storms, bad weather, etc., as the result of the sun dogs which early risers claim to have seen this morning. Reports are to the effect that the sun dogs were seen as the sun was rising and that the prevalence of such phenomena is an indication of great change in weather conditions usually brought about by a severe storm.

FATHER FOLEY'S CHECK IS RETURNED

LIGHTING CO. ANNOUNCES SERVICE WILL BE CUT OFF FROM CHURCH.

The misunderstanding between Father Foley, rector of St. Patrick's church, and the Lee County Lighting company, will reach a crisis tomorrow when the lighting company states that they will discontinue the service at the church, parsonage and parish school.

Through his attorneys, Brooks & Brooks, Rev. Foley yesterday mailed the lighting company a check for \$23.99, which he claims is all he owes the company and which is all he proposes to pay. The check was returned, however, with the following letter:

Brooks & Brooks, Attorneys at Law.
Dear Sirs—I am herewith returning check of Rev. Father Foley for \$23.99. The gross amount of these bills amounting to \$26.33, if not paid on or before the 10th of October, therefore we will not accept check.

Yours respectfully,
Lee County Lighting Co.,
A. J. Winkel, Auditor.

Rev. Foley has consulted attorneys and smilingly says he is prepared for any action the lighting company may take.

ANOTHER SCHOOL EARNS DIPLOMA

DISTRICT 61 TAUGHT BY MISS MAUDE CONLON IS QUALIFIED.

County Superintendent L. W. Miller has returned from a three days' trip, during which he inspected the schools in Sublette, May, Viola, Lee Center and China townships. He reports all of the schools to be doing well and remarks especially of the good work that is being done by the younger teachers. During this trip Mr. Miller found that the schools of district 61 in China had complied with all the requirements of the state superintendent's office and were qualified for a state diploma. Miss Maude Conlon is the teacher of this school, which is the fourth one in Lee county to receive a diploma.

CAMPAIGN TO SELL RED CROSS STAMPS

EFFORTS WILL BE MADE TO INCREASE THE SALES IN ILLINOIS.

Chagrined that the state of Wisconsin last year purchased over five times as many Red Cross stamps as Illinois, the local officials of this great charitable organization have started a campaign for the sale of an enormous amount of the stamps in this state this season. County Superintendent L. W. Miller has received a communication from the officers in which they ask for the names of reliable parties who will handle the stamps, and Mr. Miller would be glad to have the permission of sending the names of anyone who wishes to assist in the great work. The proceeds from the sale of these Christmas stamps will be used in a national warfare against consumption.

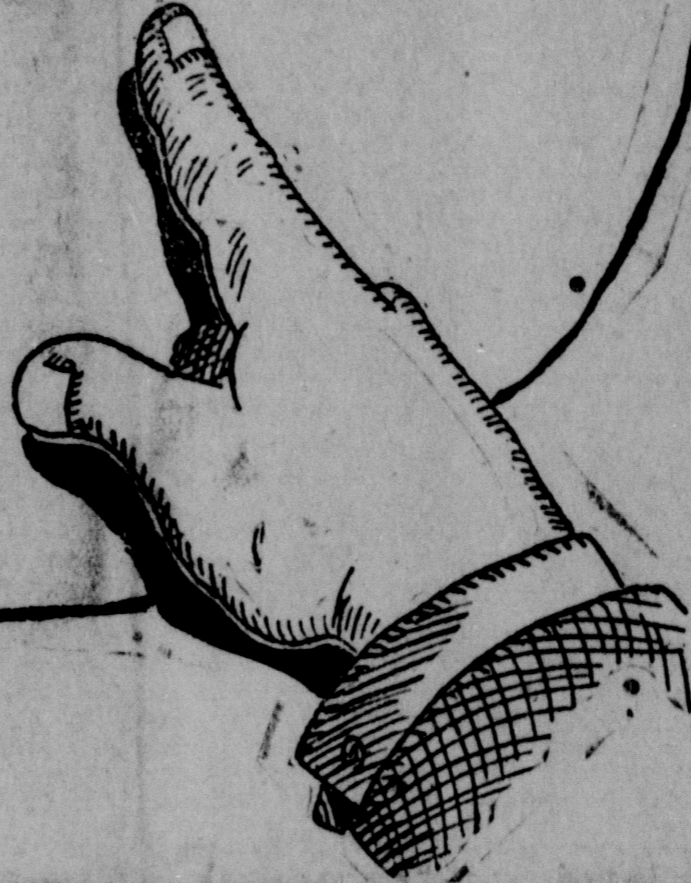

FIRE LOSS PAID.

The Philadelphia Underwriters, through their local agent, Joe Petersberger, paid Frank Bishop \$180 in settlement for his loss in the fire at the Bishop hotel the first of the week.

POULTRYMEN TO MEET.

SATURDAY IS DOLLAR DAY

THIEVES GET AWAY WITH 50 CHICKENS

BIRDS WERE TAKEN FROM MCGAFFEY FARM WEST OF THE CITY.

Thieves looted the hen coop on the Samuel McGaffey farm on route 7 in Prairieville last night and got away with about 50 fine Rhode Island Red chickens.

There were guests in the house, and they heard the noise made by the marauders at about 2 o'clock this morning, and gave the alarm. Before the rest of the house could be aroused, however, the vandals made their getaway. They were seen to run down a ditch toward the road, and it is thought they had a vehicle in waiting. There were two men.

Officers in this city were notified and Sergeant Gaffney made an investigation here today to ascertain if possible whether or not the men had tried to dispose of the chickens in Dixon. As far as known they did not come here. It is possible they went to Sterling or Polo.

A case from Polo, Stevens vs. McCoy, will also be heard by the judge tomorrow.

NEAR FIRE OCCURED AT OPERA HOUSE

DRAPERY CAUGHT FROM CANDLE—EXTINGUISHED BY QUICK MOVE OF ACTRES.

A fire, which had it gotten a good start in the scenery on the stage of the opera house would have proven very serious, was narrowly averted last night when, through the promptness of Mrs. Coburn of the Coburn Players company, a flaming curtain which had been ignited by a candle, was extinguished by a quick stroke of the hand.

The accident occurred during the action of Macbeth, in which the company was appearing. Lady Macbeth had entered the stage carrying a lighted candle when a curtain or drapery caught fire as she brushed against it. Fortunately the blaze was extinguished immediately and the audience, which barely had time to notice the accident, had not started in the panic which usually results from such accidents. Had the blaze gotten into the canvas scenery a disastrous fire would certainly have resulted and some of the audience undoubtedly would have been injured in the mad rush to get out of the theatre which would have followed a bad fire.

SMITH COMING TO FIGURE ON LIGHTS

DIXON TO HAVE BETTER SYSTEM OF LIGHTING AS RESULT.

C. C. Smith, vice president and general manager of the Lee County Lighting company, is expected here tonight or tomorrow to confer with the city officials regarding a renewal of the contract for street lighting. The plans of the officials, as outlined, call for the removal of all the arcs from the residence district and the installation of a 60 watt Tungsten light every 300 feet, and also the doubling of the number of arc lights in the business district by placing a big arc light every half block. It is estimated that it will require about 300 incandescent lamps for the residence district and it is proposed to have them suspended from the corner poles with brackets, and not suspend them on wires over the middle of the street.

MRS. MARY E. SMITH SERIOUSLY INJURED AND CONDITION CRITICAL.

CROSSED IN FRONT OF TRAIN

Mrs. Henry McWethy Fell From a Porch, Spraining Hip—Condition Serious.

Mrs. Mary E. Smith was very seriously hurt this morning by being struck by the northbound Illinois Central passenger train, and reports from which place an ambulance and was taken immediately after the accident, are to the effect that her injuries are likely to prove very critical because of her advanced age.

The accident occurred at the Swiss ville crossing, on Squires avenue. Mrs. Smith, who is 75 years of age, and because of her age cannot walk very swiftly, had started to cross the tracks when she heard the northbound passenger train, which was late, whistling for the crossing.

Tried to Cross Tracks.
Not realizing that the train was so close or that it was moving so rapidly, the unfortunate lady attempted to cross ahead of it. The engine, which had been shut off as soon as the engineer saw the woman attempt to cross the tracks, struck her a glancing blow, otherwise she would have perhaps been killed instantly.

She was thrown to one side a considerable distance. The train was stopped immediately and the train crew, in charge of Conductor Stewart, at once hurried to her assistance. She was placed aboard the train and taken to the North Dixon depot, from which place an ambulance and the victim's sons, Mark and Austin Smith, were summoned.

Arm Is Broken.
Upon the arrival of the ambulance she was taken to the Dixon hospital, where surgical attendance was at once given her by Dr. C. C. Kost, acting surgeon for the Illinois Central. It was found that the left arm was badly fractured in two places and that the right hand was mashed to such an extent that the fourth and little fingers had to be amputated. She also received several bruises and a severe nervous shock.

Because of her age the accident is of a very critical nature to Mrs. Smith and fears are entertained that she may not recover from the injuries.

Fell and Sprained Hip.
Mrs. Henry McWethy, who resides two miles west of the city, fell from a high porch at her home this morning and sprained her right hip, in addition to receiving bruises and a severe shock. The injured lady is 80 years of age, and because of this fact the injuries she received are critical.

A Curious Illusion.

People declare that they have seen a field of grass gradually change color during a shower of rain, thousands of mushrooms springing up before their eyes. This is an optical illusion caused by the rain beating down the grass. The mushrooms do not really spring up during a single shower of rain. They are there already, but hidden by the grass, and when the rain beats down the grass it exposes the hidden mushrooms.—London Mail.

TELEGRAM SHOWN IN LORIMER CASE

Message Held to Refute Senator Broderick's Word.

LUKA TELEGRAPHER ON STAND

Third Document Apparently Supports Confession of Former Senator That He Got Cash for His Vote for Senator.

Chicago, Nov. 3.—An important link in the chain of evidence confirming the Holstlaw confession was the following telegram produced for the first time before the senatorial committee which is investigating the election of Senator Lorimer.

175 West Madison street, Chicago: I will meet you at your address Wednesday morning.

D. W. HOLSTLAW.

The telegram is dated June 14, 1909, at Luka, the home of Former Senator Holstlaw. The Wednesday referred to in the message is Wednesday, June 16, 1909, the day on which Mr. Holstlaw deposited \$2,500 in the State Bank of Chicago after being paid that amount for his Lorimer vote, according to his story, by Senator Broderick at the latter's West Madison street saloon.

Inasmuch as Senator Broderick in denying that he ever paid any money to Mr. Holstlaw has declared that the downstate senator merely dropped in unexpectedly to make him a social visit the newly discovered telegram is considered of great importance. Mr. Holstlaw has insisted that Senator Broderick wrote him prior to his first visit to the Broderick saloon asking him to come to Chicago.

The telegram is the third important document relating to the payment of money by Senator Broderick to Former Senator Holstlaw which has been unearthed within the past three weeks.

The first of these discoveries was a letter written by Senator Broderick on Aug. 26, 1909, asking Mr. Holstlaw to call on him on the following Saturday, Aug. 28.

The discovery of the Broderick letter led up to the finding of the second important bit of documentary evidence, a \$700 deposit slip made out to Mr. Holstlaw by the State Bank of Chicago on Aug. 28, the day on which he claims to have received the jack-pot money.

The telegram sent by Mr. Holstlaw to Senator Broderick was introduced by R. A. Chickedentz, manager of the Western Union Telegraph office at Luka. Mr. Chickedentz testified that he found the telegram, which is in Mr. Holstlaw's handwriting, in the June, 1909, files of the telegraph office. He said the message was sent by Walter L. Deabler, his assistant, who will appear as a witness next week.

The importance of the telegram was evident from the manner in which Elbridge Haney, attorney for Senator Lorimer, pounced on Mr. Chickedentz. Mr. Haney intimated that the telegram was forged and called the attention of the committee to erasures he said had been made in the writing of the message. Mr. Chickedentz declared the telegram was precisely as transmitted.

Elephants Can't Jump.

"There is one thing no one has ever seen an elephant do either in a circus or out of it, and that is to jump," said a keeper in the Central park menagerie.

"The fact is an elephant cannot jump. Because of his great weight he cannot take all four feet off the ground at once. He can make a 100 yard dash at the rate of twenty miles an hour, which is going some, but if he was pursuing an enemy and came to a deep ditch eight feet across he would have to stop short, because it is too wide for him to step it and he is unable to jump. An elephant is a great coward. He will have a fit if a rabbit runs between his feet. He has tremendous strength, but he doesn't know it."—New York Sun.

Didn't Hit Him.

John Wesley had a reputation for cheerfulness. In his journal he writes: "I preached in Halifax to a civil, senseless congregation. Three or four gentlemen put me in mind of the honest man at London who was so gay and unconcerned while Dr. Sherlock was preaching concerning the day of judgment. One asked, 'Do you not hear what the doctor says?' He answered, 'Yes, but I am not of his parish.'"

Not Purely Curiosity.

Among the passengers in one of the cars of a train running between Springfield and Boston was a nervous little old man who evinced a keen interest in a slither looking person who took a seat beside him.

"How do you do?" said the nervous little old man to the slither looking person. "Now, what might your name be? Do you live in Boston or beyond?"

"What business is it of yours where I live or who I am?" growled the other.

"Strictly speaking, it ain't none of my business," admitted the old gentleman mildly, "but it's just like this: I've got a cousin in this part of the state that I've never seen, and I've always thought I might come upon him some time just by asking folk their name and so on."—Harpers.

AN ECCENTRIC BUTCHER.

His Bills Were Queer, and So Were His Eating and Praying.

In 1729 there died at Romford, in Essex, England, a well known butcher of that town named Wilson. Mr. Wilson, it appears, was notable for his integrity in business and for the gentleness of his manners—two qualities which, perhaps, would scarcely have entitled him to the notice of posterity had he not also exhibited a remarkable addiction to psalmody, extraordinary proficiency in penmanship and a highly peculiar manner of eating his dinner.

Such butcher's bills as he sent to his customers had never been seen before and have never been seen since. They were all exquisitely written by his own hand, but the top line would be, perhaps, in German text, the second in Roman letters, simulating the finest print; beef would be in one style of writing, mutton in another, lamb in a third, while each of these kinds of meat would be still further distinguished by a different color of ink.

He was a great friend to the church, observing all its ordinances and a trifle more. Every Sunday he entertained the congregation with a solo, singing the psalms by himself until the minister came into the desk. And on every fast day, while all the rest of the congregation went home to their refreshment and rest, between morning and evening service, he never quitted the church, but went about from pew to pew repeating the Lord's Prayer and singing appropriate psalms until he had performed these favorite devotions in every pew in the church.

He had a large appetite and seemed determined that all Romford should know it, for, instead of sitting down quietly to dinner in his back parlor, he would usually sally forth into the street with a leg or shoulder of lamb in one hand, a large knife in the other, a small loaf of bread in his pocket and a handful of salt in the bend of the arm which carried the joint; and thus equipped would permebrate the town, eating as he went, until he had consumed the whole of this very substantial meal.—Chambers' Journal.

COBURN PLAYERS PLEASED

Dixon theatregoers took an excursion back into the 11th century last evening and enjoyed the production of Macbeth at the opera house as presented by the Coburn Players. This is a capable company of experienced actors and their revival of Shakespearean plays evidently meets public approval for a large audience was present. It was interesting to note the large number of high school students present, and it was also noted that the literary clubs of the city were well represented.

The stage settings were good and the company was finely costumed. The careful attention to details added greatly to the enjoyment of the production and this was especially noted in the lighting effects. There was a near accident in the sixth act when Lady Macbeth in her sleepwalk backed into the heavy drapery and set fire to the curtain with her lamp. She was barely able to react to the height the flames jumped and swept them out with her hand.

If the story of Macbeth is not familiar to all our readers they should set aside some time this winter to not only read this play but other leading Shakespeare plays. The young people of this day need to go back to the classics, for in them they will find more mental stimulus than in a library of present day writings.

Instant Relief for Sore Feet

Sore Feet, Tender Feet and Swollen Feet Cured Every Time. TIZ Makes Sore Feet Well No Matter What Ails Them.

Policemen all over the world use TIZ. Policemen stand on their feet all day and know what sore, tender, sweaty, swollen feet really mean. They use TIZ because TIZ cures their feet right up. It keeps feet in perfect condition. Read what this policeman has to say: "I was surprised and delighted with TIZ for tender feet. I hardly know how to thank you enough for it. It's superior to powders or plasters. I can keep my feet in perfect condition. Believe in my earnest gratitude for TIZ. I am a policeman and keep on my feet all day"—Emzy Harrell, Austin, Texas.

You never tried anything like TIZ before for your feet. It is different from anything ever before sold.

TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and glorifies the feet—your feet.

You'll never limp again or draw up your face in pain and you'll forget about your corns, bunions and callouses. You'll feel like a new person.

TIZ is for sale at all druggists at 25c per box, or it will be sent you direct if you wish from Walter Luther Dodge & Co., Chicago, Ill.

Lee County Farmers' Institute

The citizens of this city gathered Tuesday afternoon in the opera house and furthered plans and arrangements for the holding of the Lee County Farmers' Institute which occurs in West Brooklyn on December 13, 14, 15th. A goodly crowd was present and the way they took hold of the business was pleasing to behold and certainly goes a long way towards firmly establishing the ultimate success of the Institute.

The women folks representing the household science department or the Institute also met in the same hall and attended to their various matters of business that was before them. However we have not succeeded in getting the minutes as kept by their secretary so cannot print them at this time. We have the minutes of the men's division of the meeting and you will find them following:

West Brooklyn, Ill., Oct. 31st 1911

Meeting of citizens of West Brooklyn and vicinity in opera house to further plans and arrangements for the Lee County Farmers' Institute. The roll call found all the officers at their desks to take charge of the meeting. After an introductory address the chairman asked for whatever matters the various individuals present had brought up before the

meeting for consideration. The premium list committee appeared to be the chief topic in order to arrange the premiums as will be listed on the program, so was first taken up. A motion was made by J. F. Bernardin and seconded by F. W. Meyer that a premium list committee consisting of six members, including chairman and secretary be named by the chairman. Carried. Chair appoints Messrs U. G. Dysart, J. W. Thier, William Auchstetter, and J. F. Bernardin, as members of this committee, they to act with himself and the secretary, as per motion. This matter being settled, the local executive committee was next brought up and a decision was reached wherein all persons present thought it time to name this committee so that they could become acquainted with the work expected of them during the time of the Institute and immediately preceding and following it.

F. L. Oester moved that chairman name six persons on the local executive committee, including chairman. His motion was seconded by H. A. Bernardin. Motion carried. Chair names Messrs F. D. Gehant, chairman of committee, H. H. Danekas, F. L. Oester, M. J. Bleschke, F. W. Meyer and Charles F. Guffin.

There being no further business for the meeting, the work now being all in the hands of committees for completion, a motion was made and seconded that we adjourn. Carried. A true record.

OLIVER L. GEHANT, Secretary.

Now, to every reader of the News who has followed up the report of the secretary as published from time to time in the columns of this paper, it is plainly evident that great interest has been taken by the citizens of this vicinity in the Lee County Farmers' Institute which will be held in West Brooklyn on Dec. 13, 14, and 15th. All the people have taken hold of the work in grand style and only success can result from their efforts. They have named many committees who have charge of the final works and who are busily engaged in arranging all details for the three big days for the farmers of this county. Nothing is being spared to make this year's program and exhibits the best ever held in the county and it is the earnest hope that every resident of the county will visit our town during those three days and witness the wonderful

scenes that await their eyes.

St. Mary's Mission

The rainy weather during the first of the week prevented the crowds attending the Mission at St. Mary's, from being as large as they would have been but never the less, the church was well filled at every session and service. From 5:30 in the morning until 9 and 10 o'clock at night, each day the mission was in progress, and the wonderful sermons of Father Ignatius were received by the congregation with all sincerity. He is an excellent orator and always commands the attention of every occupant of the church where he is speaking. The mission closes Sunday night.

Accused Minister Will Be Arraigned Next Monday Morning.

Boston, Nov. 3.—The Rev. Clarence V. T. Richeson has resigned the pastorate of the Immanuel Baptist church in Cambridge. STOMACH DISTRESS IS ENDED FOR EVER

NO DYSPEPSIA, HEARTBURN,
GAS OR INDIGESTION IN FIVE
MINUTES

Take your sour, out-of-order stomach—or maybe you call it indigestion, Dyspepsia, Gastritis, or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist, and ask him to open a 50-cent case of Pape's Diapepsin and let you eat one 22-grain Triangles, and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring; the Digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is feeble, and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapepsin.

Garland Murder Jury "Hung." Opelousa, La., Nov. 3.—The jury trying Mrs. McRee for Allan Garland's murder filed into the courtroom and the foreman, P. G. Biddle, reported to the court there was no possibility of agreeing on the verdict. They were sent back for further deliberation.

HEALTH HINT FOR TODAY.
Best Results in Digestion.
Bulk is necessary to the best results in digestion and especially in elimination. Often serious constipation can be largely overcome by eating coarse foods. Eggs and milk are good in some cases, but very often injurious when eaten to excess and when unduly retained in the stomach, as they are when taken with meat. The principles here concerned explain why the exclusive meat diet has been found remarkably beneficial in some cases, and why an exclusive diet of coarse bread has been found equally helpful in others. In spite of the fact that bread is less completely digested than meat or eggs in those cases in which there is a demand for them and in which the organism and functions are normal. Each must be a law unto himself, and the interpretation of the law often taxes the knowledge and skill of the physicians.

THE ASTOR WAY.
A Lesson in Finance That William B. Taught His Bookkeeper.

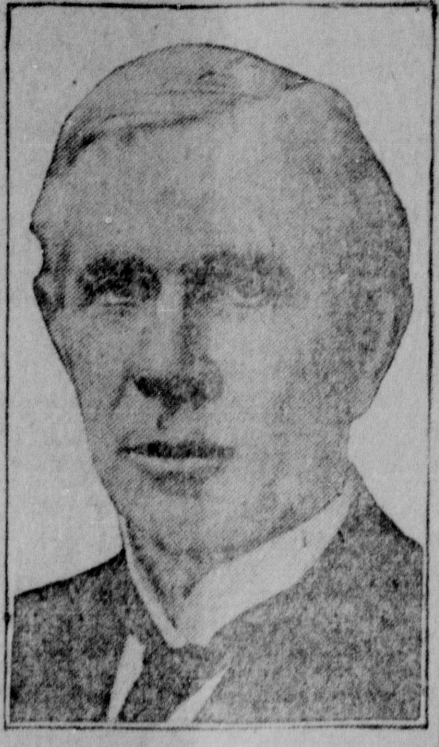

The great estate dealer was reminiscing. "Some years ago," he said, "William B. Astor said one day to his head bookkeeper, 'I wish you to write out those 1,200 leases—indicating the documents—preparatory to releasing the various properties for which they will be drawn and reduce each rental price 25 per cent for the ensuing year.' The head bookkeeper, astonished, ventured to protest. 'There has been no complaint,' Mr. Astor, he said, 'from any tenant as to the amount of rent charged. All are satisfied to pay present prices.'
"This is a matter of future business," the financier replied, "as well as present. Times are not especially good just now, and I do not think they will improve this year. I am not, however, making this reduction as a philanthropic movement. It will be a good business investment for me to retain all of my tenants, if possible. Indications are that business conditions during the coming year will force many persons to move into cheaper houses and flats than they have been occupying for some time. I do not wish my tenants to move. I know them and am familiar with their ways. I am acquainted with their needs, demands and methods of paying their rents. If they should move I should have to try to replace them with new tenants, whose desirability I have not tested. Besides, I should have to spend large sums in repapering, painting and arranging these various properties to suit the new tenants. By reducing rents I shall have a delighted lot of tenants, who would not leave me if they could. Furthermore, I will make it impossible for them to find as good places elsewhere for the money. Naturally, having had their rents reduced, they will not ask for any repairs that can possibly be avoided, and I shall save some money in that direction, over previous years. Besides, I shall know the exact amount of reduction and shall be able to estimate my resources accordingly. If, on the contrary, I let many of my tenants move out the amount of my losses would be uncertain. You will find, if you compare my rentals at the end of the year with those of similar properties owned by other persons who make no reductions, that mine is a profitable plan. When times improve we can release at advanced figures, and undoubtedly to the same tenants."
"The bookkeeper learned a lesson in finance, the leases were drawn accordingly, and Astor did not lose a tenant."—New York Press.

DIXON COLLEGE TO DAVENPORT TOMORROW

ST. AMBROSE ELEVEN IS ANTICIPATING A HARD FIGHT

Here is how the Davenport Times sporting editor dopes out the game which the Dixon college plays there tomorrow:
The St. Ambrose college football eleven is working hard for the game with the Dixon Normal school team, to be played at Three-I league park Saturday at 3 p. m. The De Paul team which held Marquette to a low score, had difficulty in beating Dixon school. This has proved to the St. Ambrose gladiators that they will have a tough job and the game will probably be the hardest of the season.
Coach McManus is making every effort to improve team work in the handling of the forward pass and in punting. St. Ambrose had a bad time with the former play last Saturday, and the coach hopes to remedy the discrepancy before the game with Dixon.
The Lineup.
The line is working hard. Peters will be at center. Dowd and Crowley at guard; Morrissey and Portel at tackle assures St. Ambrose supporters that their part of the line will be taken care of if they play like they did last Saturday. Kennedy has left end cinched. He cannot be displaced. Haynes at quarterback is showing more football brains every day in running his team. With Fitzpatrick, Brown and Haley in the back field, the team looks strong and hopes for another victory Saturday are running high.
Helping the Coffee.
Some of the coffee sold roasted and ground causes complaint. Most of it can be improved a little. Trouble seems to be that it is not roasted enough and needs another touch of fire. You know the loss it is roasted the more it weighs. Put a couple of tablespoonsful in a seamless agate quart steapen or cup and set it on the stove, gas or blue flame and shake it while it gets another scorching, never letting it get hot enough to smoke or scorch. Set it aside till it gets cold and then pour on the water and finish up in the regular way.—New York Press.

Jurist Who Rendered Decision in Wheat Price Case.

MAY ABOLISH THE LOOP
Planning to Do Away with Downtown Structure in Chicago.

Elevated and Surface Cars May All Run into Subways in Middle of City.
Chicago, Nov. 3.—The first offer from the traction interests, including an agreement to abolish the union loop, was presented to the city council. Leonard A. Busby, in behalf of the interest which plans to merge all the elevated and surface lines, offered a plan before the local transportation committee of the council.
He admitted that not only were surface lines congested beyond all reason, but that the union loop was also crowded far beyond its carrying capacity.
The traction interests declared they were willing to abandon their claims to the union loop and to run their cars in the proposed subways on condition that a plan be found by which they could be guaranteed ample trackage to handle the traffic.
Universal transfers and a five cent fare to all parts of the city were included in the offer.

A GREAT DISCOVERY
CERTAIN INGREDIENTS THAT REALLY PROMOTE HAIR GROWTH WHEN PROPERLY COMBINED.
Resorein is one of the most effective germ destroyers ever discovered by science and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its natural nourishment, and also creates a clean, healthy condition of the scalp, which prevents the development of new germs.
Pilocarpin, although not a coloring matter or dye, is a well known ingredient for restoring the hair to its natural color, when the loss of hair has been caused by a disease of the scalp.
These ingredients in proper combination, with alcohol added as a stimulant and for its well defined nourishing properties, perfect perhaps the most effective remedy that is known for scalp and hair troubles.
We have a remedy which is chiefly composed of these ingredients, in combination with other extremely valuable medicinal agents. We guarantee it to positively cure dandruff and to grow hair, even though the scalp in spots is bare of hair. If there is any vitality left in the roots, it will positively cure baldness, or we will refund your money. If the scalp has a glazed, shiny appearance, it's an indication that baldness is permanent, but in other instances we believe baldness is curable.
We want every one troubled with scalp disease or loss of hair to try Rexall "93" Hair Tonic. If it does not cure dandruff and grow hair to the satisfaction of the user, we will without question or quibble return every cent paid us for it. We print this guarantee on every bottle. It has effected a positive cure in 93 per cent of cases where put to a practical test.
Rexall "93" Hair Tonic is entirely unlike, and we think, in every particular, better than anything else we know of for the purpose for which it is prescribed. We urge you to try this preparation at our entire risk. Certainly we know of no better guarantee to give you. Remember you can obtain Rexall Remedies in Dixon only at our store—The Rexall Store, C. M. Campbell & Son, 105 First St.

LET CROWD DIVIDE HONORS
Ludwig, the aviator who went up in a biplane at the Oregon fair August 25, was recently killed as the result of an accident at Columbus, O. His engine was out of order and he told the crowd of the fact and they continued jeering until he made the attempt. When at an elevation of 300 feet his gasoline tank exploded and Ludwig fell enveloped in flames, dead. The jeering crowd is responsible for his death.
The next time an aviator is jeered by a crowd for not attempting a flight when his machine is out of order he should explain the conditions and then call for volunteers from the jeering crowd to make the flight with him and see how willing they are to take the almost certain chance of death.

When Dr. John Cairns went from Scotland to Ireland for rest and travel in 1864 he was at once delighted by discovering from the guides who showed him about that most of the landed gentry were "Sunday folks."
"That's a fine castle," he would say, pointing to a big house set like a crown on some rocky hill.
"Yes, sir," said his guide. "Tis Sir John O'Connor's," or, "Tis Sir Rory O'More's." He always added, "He's a Sunday mon."
At last Dr. Cairns grew curious. "What is a Sunday man?" he asked. "Well, sorr, it do be a mon that has so many writs agin him for debt that he stays shut up tight in his house all the week and only comes out on Sunday, when the law protects him."
Dr. Cairns' opinion of the landed gentry underwent a change.

Mrs. W. S. Morrison of Minonk, accompanied by her little son Robert, are visiting her parents, Mr. and Mrs. Josiah Buffet.

DEMENT TOWN DOINGS

Seventeen Dixon young ladies who drove to the Bachman home south of Franklin Grove to spend the evening say that Lee county scenery is great. For these ladies, although they left the Bachmann home at midnight, did not get to Dixon until 6:15 a. m. They visited Amboy on their way home, mistaking the road, of course. The charming miss who assists Zoeller give away things for 10c will gladly give full particulars of the trip.

Back to the soil continues to be the cry. Even the politicians are following the practice—especially when it happens to be a mud slinging campaign.

Wanted. Dashing young widow would like to meet gentleman 9 years of age with a million dollars and a hard cough. Object, matrimony.

Podunk School Notes.
Little Sam Hawkins is getting to be a right smart lad. He says people in Brazil have trouble sleeping nights because of the noise made by the rubber trees when they stretch themselves. Which is considered real cute of Sammie.

Willie Hardelder defines faith as the thing that makes a prohibition candidate for governor have his pictures labeled: Our Next Governor.

Our boys were very careful this Halloween. All they did to the school house was to pull Seth Perkins' wagon onto the roof, tie a cat to the bell tongue, saw the legs off the teacher's chair so she bumped herself between the desk and the stove when she sat down, threw a lot of rubber into the coal, which stunk like all get-out when it was thrown into the stove, and filled every inkwell in the school with molasses.

The Podunk football team played their first game last Sat. but were beaten 75 to 0. The feature of the game was the long run from the center of the field by full back Wilkins. He thought sure he had made a touch down but found after he had crossed the line he had dropped the ball.

NEWS OF THE MUSICAL WORLD

Reginald de Koven, whose skill opened the way for the American composer in this country in the field of Opera Bouffe, will soon have another work credited to the long list he has already wrought. "The Wedding Trip" is the name of the newest work by the author of "Robin Hood" and its premiere takes place very soon.

Liszt Centenary programs are being given all over the world by the representative symphony orchestras. The great composer was born Oct. 22, 1811. The New York Symphony society has just given the first concert of the season devoted to Liszt writings.

That admirable cellist, Paulo Gruppier, who is playing in Europe with such credit to himself, sails shortly for this side of the Atlantic to begin his season, which will be long and call him to the principal cities of the United States and Canada.

New York opera goers are interested in the appearance of Margarete Matzenauer, the German contralto, who is expected to make her American debut the first night of the Metropolitan's season as Amneris in "Aida." She sings equally well in English, German and French.

Another operatic newcomer who will shortly have his vocal and artistic abilities measured is the American basso, Putnam Griswold. According to accounts he is one of the foremost of living basses, and if this be so his addition to the Metropolitan roster of principals was a proper managerial move.

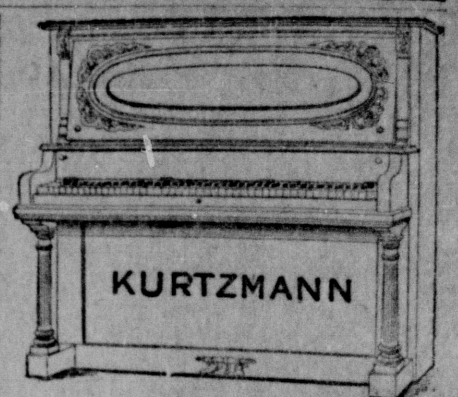

career Mary Garden has sung the role of Carmen in the Bizet opera of that name. Last night in opening the Philadelphia season, Miss Garden was heard and seen in the cigarette girl. She sings the part in New York later.

DOWN THE HENNEPIN TO NEW ORLEANS

Three young men, Bert Smith, formerly of Sterling, Fred Hausen of Franklin Grove and Louis Rotherson of Chicago, left for a trip to the Gulf of Mexico in a houseboat Wednesday. They left Sterling at noon, headed down the canal for the Illinois river. They are well stocked with firearms and traps and expect to spend the winter hunting along the Mississippi and in Arkansas, reaching New Orleans about April 1st, where they will sell their outfit and return by rail.

BETTER NAVY IS DESIRED BY TAFT

Ours is Already One of the Finest on Earth.

RARE SPECTACLE AT NEW YORK

Great Fleet Comes Down River in Review and Puts Out to Sea in Fifty-Mile Gale, Watched by a Million People.

New York, Nov. 3.—"It's a good navy, but we're wasting money if we don't have a better," said President Taft after he had reviewed from the bridge of the yacht Mayflower the battleships and armored cruisers of the Atlantic fleet sweeping out to sea.

He passed judgment after an inspection of the most powerful fleet ever assembled under the stars and stripes. "Those who saw the fleet which was assembled in New York harbor could not fail to be struck with its preparedness and with its high military efficiency and must have been proud of its personnel."

"The demonstration has had an educational status in arousing patriotism, in increasing the knowledge and interest in the navy, in illustrating the ability to mobilize on short notice and showing the skill of the officers who turned the whole fleet in the narrow river and sent it to sea at the rate of fourteen knots per hour."

"The equipment of the fleet is excellent except as to the number of destroyers and cruisers and colliers in proportion to the whole number. We had in the fleet twenty-two destroyers and to meet the full requirements there should have been, approximately, 100 destroyers, or an average of four to each battleship. It is true that there has been a marked improvement in the type of colliers and fast cruisers in our navy, but it is also true that we haven't a sufficient number."

"In addition to building great battleships, other nations are building enormous high speed cruisers—twenty-eight knots per hour—and it is believed that our navy should be similarly equipped. Unless a navy is maintained at the highest possible state of efficiency it is a needless extravagance."

The noblest side of the review the president was unable to witness on account of his position off West Twenty-First street, far below the battleship column—the titanic struggle the fleet won against gale and current that it might swing in a narrow river, point straight and come down the Hudson in the alignment ordered, 400 yards between ship and ship, 800 yards between division and division. Navigators of the experience of Rear Admiral Richard Waldright said they had never seen anything finer in their experience.

The fleet put to sea in a fifty-mile gale, but that was a little thing compared to swinging in the Hudson and maintaining formation without nicking a plate or scratching paint.

The departure of the fleet was witnessed by perhaps 1,000,000 people who lined the Manhattan shores.

GREAT FIRE IN MANILA

Flames in the Chinese District Cause a Loss of \$1,000,000.

Manila, Nov. 3.—The Chinese district was swept by fire with a loss of over \$1,000,000.

At noon the fire threatened to destroy the commercial center of the city and the Twentieth infantry, with General Funston in command, was called out to assist the fire fighters. The work of the soldiers saved the day and the fire was under control early in the afternoon.

FALLEN LEAVES CAUSE CRASH

One Killed and Twenty Hurt in Cincinnati Car Collision.

Cincinnati, Nov. 3.—Falling leaves caused three street cars to collide, death of one man and the injury of twenty on the Gilbert avenue hill here. The leaves filled the grooves in the rails of the street car line, and a car going up the hill slipped on the wet leaves and started backward. It ran into another car following it and the two raced down the hill and collided with a third car.

OLD TESTAMENT TIMES BROOKLYN TABERNACLE BIBLE STUDIES

GOD'S PROVIDENCE RE TWO QUEENS.

Vashti's Method—Esther's Method. Present Day Applications. Esther iv, 1-5:3—Nov. 5

"The Lord preserveth all them that love Him."—Psalm cxxv, 20.

TODAY'S study has Queen Esther for its topic. She was a Jewess, noted for her beauty, and on this account she was chosen of Ahasuerus, King of Persia, to be his queen. It is presumed that she received the name Esther, which signifies a star, because of her beauty, Hishar being the Chaldean equivalent for Venus. She succeeded Vashti, the former queen, who had displeased the king and been divorced.

In the opposite course of these two queens we find a lesson bearing on the suffragette question of today. The king had a banquet with the lords of his empire. It may be assumed that it was a revel, and that the king and his guests, at the height of the revel, were more or less under the influence of wine. Giving Queen Vashti the benefit of the doubt, this was probably her reason for ignoring the king's request that she come into the banquet garden.

Many will say that she did just right in asserting her womanhood, in "standing up for her rights," etc. We will not dispute that all women have rights, and that Queen Vashti and hers and that she exercised them. We merely offer the suggestion that in a question of "rights," along lines of force and compulsion, Queen Vashti won a victory which cost her dearly. In Queen Esther's procedure, which is the subject of this lesson, we see the opposite course pursued—the queen won a great victory with happy results by a totally different method, and one which in our judgment recommends itself to the wisest and best of men and women.

While we recognize the fact that spiritual New Creatures in Christ are not esteemed of God on account of pedigree, station or sex, that "there is neither male nor female" in Christ Jesus, still it is true that, as the Scriptures declare, "Man is the head of the woman," and she is the "helpmeet for him." See Genesis ii, 18; 1 Corinthians xi, 3; Ephesians v, 23-25.

Esther Stopped For Victory. Queen Esther was not a suffragette. When invited to become the queen she did not decline and see to it that she stood on the same ground as Vashti. She accepted her accession as of Divine providence. She clothed herself with humility and with the most becoming of her fine apparel. She made herself as agreeable to the king as possible. Haman, the king's favorite, took a dislike to the gate-keeper of the palace, Mordecai, a Jew, because the latter did not bow before him, as did others. Mordecai was so faithful that Haman could not hope to find a fault with him, and thus to cause his removal. His hatred extended to the entire Jewish race. He prevailed upon the king to issue a decree that all the Jews of his kingdom should be set upon and killed, as enemies of the country. This, of course, would include Mordecai, his special enemy, whom he would then feel free to kill.

As the time for the enforcement of the decree drew nearer and nearer, Mordecai and all the Jews throughout the empire were in great distress and fear, yet not without hope that their God would work for them some deliverance.

Queen Esther was cousin to Mordecai although the latter was old enough to be her father. She was, indeed, his adopted daughter. He appealed to her to use the influence of her position to have the king rescind the order, assuring her that she was about to lose a great privilege of service for her people; that God evidently raised her to this position in the kingdom for this very hour and for this very purpose of bringing to the Jews relief and that if she failed to note and to use the privilege, God doubtless would use some other agency and still bring deliverance in harmony with His promises. The appeal was sufficient. The queen merely delayed for three days more, requesting that Mordecai and all the Jews of the royal city should join with her in a three days' fast before God.

Love and Beauty Conquered. Queen Esther risked her station and even her life in going into the king's presence without a summons; but attired in her royal apparel she risked everything for her race. She charmed the king, who extended to her his royal scepter.

Her case was won. The king perceived that he had been inveigled by Haman into making an unjust decree and Haman was hung.

MASSACRE IN HANKOW

Imperial Troops Burn Native Quarter of City.

Soldiers Get Beyond Control of Officers—Peace Plans Move Rapidly.

Pekin, China, Nov. 3.—The German legation received a wireless message from the vicinity of Hankow stating that the imperial forces are burning the native city of Hankow and confirming a report that the imperial troops massacred men, women and children during several days' fighting. It is evident that the Manchus soldiers are infuriated over earlier Chinese successes and that they are beyond the control of their officers. Letters from a correspondent at Sin Yangchay, written several days ago, declared that General Yin Tehang's troops looted the villages north of Hankow.

It is believed that Yuan Shih Kai arrived at the imperialist headquarters at Shaoan too late to stop the massacres, which had begun. It is believed that the effect of the atrocities committed by the government soldiers will have a serious bearing on the situation. The anger of the Chinese is aroused, as indicated by their desperate defense of Hankow.

The government's plan for peace moved forward rapidly, with the throne and the national assembly working together. The throne ordered Yuan Shih Kai, the new premier, to return immediately to Pekin, and simultaneously the national assembly, in its official capacity, telegraphed General Li Yuan Heng, leader of the revolutionists, requesting him to suspend hostilities pending the result of the endeavor to settle the differences of all parties.

MANCHU DYNASTY IMPOTENT

What Little Authority It Has May Be Taken from It.

Pekin, Nov. 3.—Events make more certain what has already been indicated in the dispatches, that the Manchu dynasty has been shorn of its power and is retaining only a nominal authority. Even the rejection of this shadow of authority is not absolutely assured, as the southern reformers are bent upon a republic along the lines of the United States.

Yuan Shih Kai adheres to the idea of continuing the monarchy. His supporters expect that eventually he will harmonize all differences in favor of the throne.

TURKS SHELL TRENCHES

Italian Aviator Almost Comes to Grief While Dropping Bombs.

Rome, Nov. 3.—Dispatches from Tripoli say that the Turkish field guns shelled the Italian trenches at Sudimersi, but that the firing was not accurate and the shells did not explode. The Turkish batteries were silenced by the Italian field batteries and the warships. A Turkish officer, who came with a white flag to demand the surrender of the trenches, is reported to have been detained.

The aeroplanes continue to be most useful in scouting and locating the enemy's camps. Lieutenant Rossi narrowly avoided being captured by the Turks while hovering over the camps dropping bombs. The motor of his machine got out of order and the machine began to fall rapidly. He was able to get it started again, just in time to save himself, and returned to Tripoli.

BLACKBERRY MINUS THORNS

Another Triumph Won by Wizard Burbank of California.

Santa Rosa, Cal., Nov. 3.—Luther Burbank has developed a blackberry that is minus thorns. Burbank has been at work ten years on this plant and as a result he has secured a bush which has branches as smooth and free from thorns as cherry trees.

The plant wizard has many specimens of the new plant growing in his big garden here.

FATAL DYNAMITE BLAST

500 Pounds of the Stuff Explodes Near Joliet.

One Man Is Blown to Pieces and Two Others So Badly Injured That They Will Probably Die.

Joliet, Ill., Nov. 3.—One man was killed, two others were so seriously injured they can not recover, and much property damage done by the explosion of 500 pounds of dynamite in a construction camp of the Elgin, Joliet and Eastern railroad. The detonation was heard for miles around, hundreds of windows were damaged and panic prevailed among the residents of East Joliet, the scene of the explosion.

H. Nelson, forty-six years old, was blown to pieces.

John Stein, thirty-five years old, companion of Nelson, had his chest crushed, limbs and arms broken and injured so seriously he will die.

George Wise, fifty-five years old, watchman, living in Joliet had his eyes blown out, limbs broken and injured internally, will die.

News of the explosion reached Joliet and great crowds of men, women and children hurried to the scene. The Joliet police and fire departments also made the trip and extended their aid.

Stein and Nelson, members of the construction gang had charge of the dynamite and were asleep in a shack in which the explosive was stored. A stove used in heating the place, became red hot. The men were awakened by the heat, and realizing their danger, fled from the shack. In doing so, however, they knocked over a box containing 500 pounds of dynamite. They had reached the outside safely when the explosion occurred. Both men were hurled high in the air, dashed to the ground and their bodies frightfully mangled.

Wise, the watchman, was standing fully 100 feet away. He was thrown fifty feet against a pile of stones. He was facing the shack at the time and received the full force of the explosion, his eyes being blown out.

While one man was killed and the other two mangled a little boy, Frederick Erickson, seven years old, who stood less than 100 feet away, escaped without a scratch. A mule near the child was killed instantly.

A hole twenty-five feet was made by the explosion, and it was estimated that 500 persons were thrown from their beds and 1,000 windows wrecked, together with other damage amounting to thousands of dollars resulted.

CHICAGO WHEAT CORNER ALLEGED

Uncle Sam Scents Effort to Control Prices.

AFFECTS LARGE PART OF SUPPLY

Government Said to Be About to Ask Grand Jury to Restrain Armour Grain Company from Disposing of Receipts.

Chicago, Nov. 3.—Centering in Chicago and extending to Minneapolis, Duluth, Buffalo and Baltimore, an alleged corner in wheat, by which it is declared 60 per cent of the country's wheat supply is controlled, has been under investigation by federal agents, and the results may be presented to various grand juries within a few days.

To insure necessary evidence the government, it is declared, is about to ask the grand jury here to prevent the Armour Grain company, through which it is alleged those who control the corner operate, from transferring or disposing of any of its warehouse receipts.

It is declared that the investigators for the department of justice claim they have conclusive evidence that of the 62,000,000 bushels of wheat about 17,000,000 bushels are in Chicago grain elevators, while the rest is scattered in elevators elsewhere. It was also asserted that warehouse receipts for this grain were held as collateral by certain banks and that negotiations had already been begun with New York institutions to enable the Armour Grain company to negotiate these receipts. One of the plans of the government investigators, it is said, is to seize these receipts as evidence.

It was believed by some that Adolph J. Lichstein and the Armour Grain company had lost nearly \$1,000,000 in their effort to send up the price of May and July wheat. Over 26,000,000 bushels were said to have been left on their hands.

It was this deal which directed the attention of the federal authorities to the grain markets. A St. Louis broker who was caught short was obliged to buy 100,000 bushels of wheat at \$1.04 1/2 per bushel on the day following the one on which the price was 90 cents. He appealed to the federal courts and Judge Kohlsaat ruled that he had jurisdiction to settle what was a fair price in a defaulted trade.

This decision was followed by rumors of an investigation, which caused a break of several cents in the market.

It is now believed that a former stenographer of the weighmaster's office of the board has given evidence to the government.

District Attorney James H. Wilkerson issued a statement as follows: "It would be the grossest breach of official duty for any government official to make any statement or give any information with reference to proposed grand jury proceedings. These proceedings by law are held secret."

RETURN OF KEY PUZZLES POLICE

New Complication in Knabe Murder Case.

HAD BEEN MISSING A WEEK

Implement to Work Spring Lock on Woman Physician's Door Not Seen Since Murder Is Now Mysteriously Replaced.

Indianapolis, Nov. 3.—A new complication has arisen in the Knabe case by reason of the fact that some one who took a key from the room of Dr. Knabe, either before or after she was found with her throat cut from ear to ear, has mysteriously returned it.

When the doctor was found dead in her apartment the coroner discovered that there were three keys to the spring lock which the doctor had herself ordered put on the door. One of these was carried by Miss McPherson and one by Miss Augusta Knabe. The third could not be found, though search was made for it by the coroner and detectives, who kept the facts of the missing key secret. A few hours ago the third key was found on a chiffonier in plain view of any one who would enter the room.

The coroner says that he had searched the room for it and had looked on the chiffonier and in every drawer of it and that the key was not in the room. Who returned it to the place where it was found and why it was removed from the room are questions that are unanswered. The time of the return of the key is also a mystery.

The officers do not offer any theory as to how the key was returned, but they think the finding of the person who had it will lead to important developments in determining whether Dr. Knabe died by her own hand or by the hand of another.

HELPFUL WORDS

FROM DIXON CITIZEN

Is your back lame and painful? Does it ache especially after exertion?

Is there a soreness in the kidney region?

These symptoms indicate weak kidneys;

There is danger in delay. Weak kidneys fast get weaker. Give your trouble prompt attention.

Doan's Kidney Pills act quickly. They strengthen weak kidneys. Read this Dixon testimony.

Noah W. Beal, 620 College Ave., Dixon, Ill., says "I gladly confirm all I have previously said in favor of Doan's Kidney Pills in public statements. I have often recommended this remedy and its use has always brought great benefit. For several years I suffered from kidney complaint and backache and at times was so bad off that I could not work. There was an extreme weakness across my loins and I was miserable in every way. Doan's Kidney Pills, which were finally obtained at Leake Bros. Co's Drug Store, cured me and toned up my system. This medicine should be given a trial by everyone afflicted with kidney complaint."

Ror sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Berlin's Outdoor Life.

Berlin is an amazing contrast to Paris and London in the complete absence of a leisured, well to do class with outdoor tastes. It has no Thames, no Ranelagh or Hurlingham, no weed-endy Brighton, hardly any motoring ch-nights. Its flat races are attended by dowdy tens where the race courses within reach of London are thronged with smart thousands.—Berlin Cor. London Hystander.

A word spoken, an army of chariots cannot overtake it.

The New York Life Insurance Company, after a business experience of sixty-six years, after an experience with non-forfeiting policies of fifty years, and an experience with policies without restrictions during eighteen years, now issues its Annual Dividend Policies with the following privileges and guarantees:

1. Its policies participate annually in the profits, which may be withdrawn in cash, or applied toward the payment of premiums, or applied to the purchase of participating paid-up additions, or left to accumulate to the credit of the Policy.
2. Its policies cannot be forfeited after premiums have been paid for two years. The insured receives either Extended Insurance or a Paid-up Policy. (Tables of each appear in the Policy).
3. Its policies may be reinstated at any time after non-payment of any premiums, on satisfactory medical examination and payment of back premiums with interest.
4. Its policies are incontestable after they have been one year in force, and free of all conditions as to residence, travel or occupation.
5. You can borrow from the Company at 5 per cent—after premiums have been paid for two full years.
6. The Policy provides for payment of cash value at any time after premiums have been paid for two years.
7. It is the most valuable asset you can leave behind. More certain in its results than land, houses, stocks or bonds, as its value does not rise or fall with the market.
8. Payment of the Policy may be made at the option of the insured or beneficiary, either in one sum, in a selected number of installments, or in continuous installments.
9. The Policy contains a change of beneficiary clause, under which the insured has the right to designate a new beneficiary or to designate an irrevocable beneficiary.
10. You want the very best—the most privileges and fewest restrictions—and the New York Life policies furnish it. The Company does not invest in stocks or industrial enterprises. It furnishes early in each year a Detailed Annual Statement, with schedules of investments, etc.

If you want insurance that you can depend upon, take the OLD RELIABLE NEW YORK LIFE. W. W. GILBERT, General Agent, Dixon, Ill. 59 2

An Architect's Ruse.

A story is told of Sir Christopher Wren, the great English architect who built the town hall of Windsor, England. It appears that a fidetly member of the corporation insisted that the roof required further support and wished more pillars to be added. Vainly did Sir Christopher assure him that the supposed danger was imaginary. The alarm became infectious, and the great architect was finally worried into adding the desired columns. Years rolled on, and in later times, when architect and patrons had passed away, cleaning operations on the roof revealed the fact that the supposed additional supports did not touch the roof by a couple of inches, though this was imperceptible to the gazers below. By this curious expedient did Sir Christopher pacify his critics while vindicating his own architectural skill to future generations.
